Recommendation of Standing Committee on NPK Ratio

8313. SHRI NARESH YADAV: Will the Minister of AGRICULTURE be pleased to state;

(a) whether Government propose to bring the consumption pattern of NKP fertilizers to the ideal ratio of 4:2-1;

(b) if so, the reasons for deterioration in the ratio since the decontrol of P&K in 1992; and

(c) the action Government propose to take in this Kharif season to support P&K consumption?

THE MINISTER OF STATE IN THE MINISTRY OF AGRICULTURE (SHRI ARVIND NETAM): (a) Yes, sir. Government has been making continous efforts to achieve the ideal 4:2:1 NPK ratio.

(b) NPK ratio widened after decontrol of Phosphatic and Potassic fertilisers in 1992, as their consumption declined due to increase in their prices.

(c) In order to support P&K consumption in Khurif season also. Government have taken following measures to narrow down the NPK ratio:—

(i) The scheme for Concessions on the sale of Phosphatic and Potassic Fertilizers initiated after deconirol of these fertilisers during 1992-93 is continued since then •

(ii) A scheme on Balanced and Integrated use of Fertilisers has been taken up during the 8th Plan under which integrated use of nutrients through die use of organic manure', bio-fertilisers and micro-nutrients is promoted along-with the use of chemical nutrients.

(iii) National Project on Development of Fertiliser Use in Low Consumption and Rainfed Areas has been taken up during 1994-95, under which green manure as well as integrated nutrient system is promoted.

(iv) Under the National Project on Development and Use of Bio-fertilisers, the production, distribution and use of bio-fertilisers is promoted.

(v) States are advised to organise training programme for education of farmers about balanced fertiliser use.
